"Cloud Pioneers" since 1999

Sell your rooms to guests around the world through leading direct booking technology. UiBScrs offers direct bookings on your website. Whether you have a website or are looking to create one, UiBS proven technology will help you generate direct reservations at every opportunity.

Direct Booking Engine

Tap into the massive number of web-savvy travelers that book accommodation online. UiBS's direct booking engine will allow you to sell your rooms through your own website and third party sites your hotel is listed on.

Quick Updates

Quickly update your room rates and availability with our easy to use inventory grid. Our bulk upload feature makes it easy for you to plan and apply rate changes, hot deals, and stop sells across all of your rooms up to a year in advance.

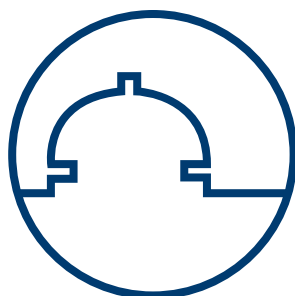

One Click Reservations

One easy-to-use dashboard for managing all of your guest reservations, from the moment they make a booking, to when they check in and check out.

Access anywhere, anytime

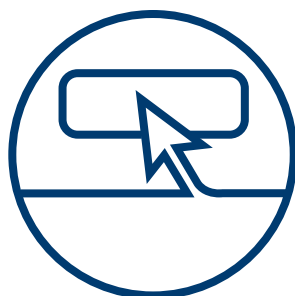

Because you can access UiBScrs from anywhere at anytime, you are not tied to your reception desk. UiBScrs is based in the 'cloud' meaning you can log in from anywhere via the internet. Whether you're using a laptop at home, an iPad or your smartphone, UiBScrs gives you unprecedented access in order to control and run your property.

Channel Manager

Modern hotel booking engines support integration with channel managers and front desk systems. You don't need the added hassle of using separate systems for each. Find an all-in-one hotel reservation system that is suited to you, like UiBS Scrs is.

Secure Online Payment

A secure PCI compliant booking engine and one click booking page will secure guest payment details to get you paid fast.

A clear path to booking

A smooth booking process that ensures guests can book as quickly and easily as possible. A confirmed reservation is only a few clicks away.

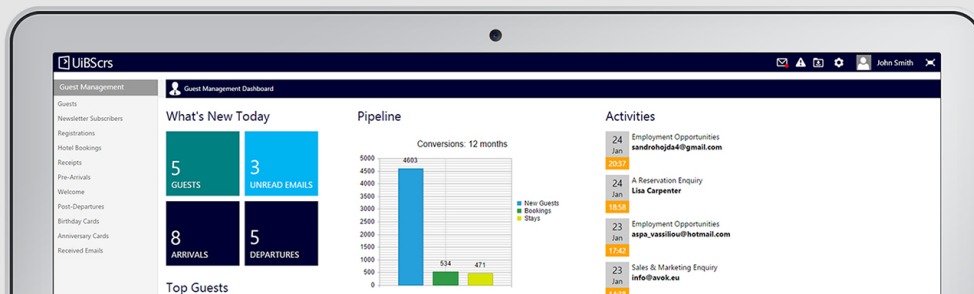

Facebook Page Bookings

Turn your Facebook fans into guests by using your Facebook page as an online booking channel. Guests don't have to leave Facebook to make a booking with you.

Helps you Sell Extras the smart way

Enhance your guests' experience and increase incremental revenue by offering Extras at the time of booking.

Multiple Room Searches

Sell up to 3 rooms to your customers with a range of booking options for each combination. Set different rate profiles for direct customers and travel agents

Real Time Stats

UiBS's hotel booking system allows you to view and analyse your customer behaviour and bookings, using custom metrics and google analytics real time reports.

XML API

Connect with your partners, travel agents or tour operators in real time, as well as automating contract rates, special offers, stop sales and bookings.

Unique & Authentic

Full customisation to your hotel website brand. Your colors, your photos, your identity, your website.

Mobile-Friendly

Whether it's a smartphone, tablet, or desktop, UiBS technology makes it as simple as possible for your potential guests to learn about your property and make a reservation with you.

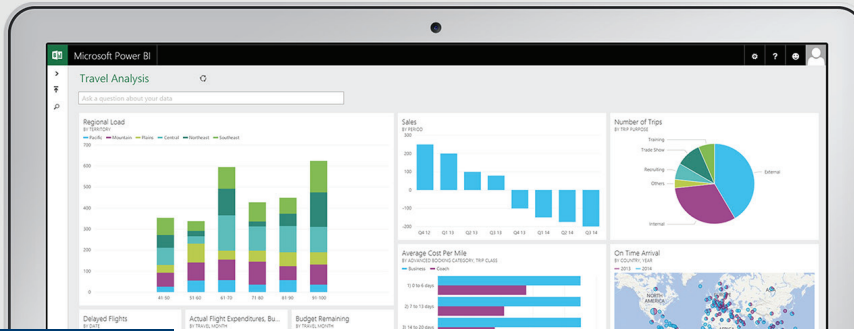

Online Survey

Engage survey for your customers. Helping to promote repeat visits and encourage word of mouth referrals. Fully customisable pre-arrival and post-departure email templates.

Customer Relationship

Keep guests engaged from the moment they book with you, and beyond. Complete your guests' experience with automatic confirmation, pre and post stay emails.
